

I'm not robot!

youtube.com/watch?... I get the Badlands run kicks in at 165,I've read Stonetalon goes green at 130,I really dont want to do Desolace swimming around with mobs. It will probably take forever!In short, what options do I have to get to 165 that will be relatively efficient. Thanks.EDIT: This is for Horde. Is this the wrong way of thinking? Some people have told me yes and others no.Obviously in groups I open all chest and let everyone free roll, but why? The chest wouldnt be available if I wasnt there unless someone had other methods which isnt usually the case.Whats stopping me from just saying "sorry cant open" and then just waiting till the dungeon is over to loot it? Why is it selfish to want compensation for actual time and effort put into the game?This isnt just a rogue thing, same applies for BSing. If you spent time leveling it, spending money on it, do you guys open chest even though you get absolutely nothing out of it if you lose the roll on the item that wouldnt be there without you?Edit: Thanks guys, based off the replys, Im going to just take the loot for myself next time. You guys are hilarious for calling me greedy for not sharing loot you wouldnt have access to. I have 92 lockpicking but cant figure out where to find these elusive 70+ footlockers in Windshear crag that all the guides talk about Hey guys :) i want to share a fast way to to get your Lockpicking to 225.Redridge - Alther's Mill : 1 to 90Redridge - Lake Everstill : 90 - 150Desolace - Ethel Rethor : 150 - 200 (225 if you are patient) (in video i said 190 instead of 200 which was my bad sorry ^^)Jf not... Pickpocket mobs in: Badlands - Angor Fortress or Pirates in Tanaris (they will give you Sturdy Junkbox to from 200 to 225) after that you will be able to open all of those sweet chest that every1 is looking rogue to do it and get some tips : P Oh btw dont forget (elixir of water breathing) it will help you a lot :JGL my friends!
